

Prevent Plant

Prevent Planting is the failure to plant the insured crop acreage due to an insured cause of loss by the final planting date or by the end of the late planting period (25 days after the final plant date for most crops). If you have prevent plant (PP), you must notify the insurance provider within 72 hours after the final planting date or during the late planting period when you determine that you will not be planting the crop.

- ◆ PP must be common to the area. Failure to plant when other producers in the area are planting could result in the denial of the PP claim.
- ◆ PP acres must exceed 20 acres or 20% of the crop in that unit to qualify. If you have Enterprise Unit selected for a crop, it would be a total of 20 acres for the crop in the county. If you have selected and qualify for Enterprise by Type for a crop, the PP acres must exceed 20 acres or 20% by type.
- ◆ PP acres must be insurable and physically available for planting. Land that has not been planted, harvested and insured in at least 1 of the 4 most recent crop years is considered not available to plant and is not eligible for PP. Once the land becomes ineligible for PP, it must be planted, harvested and insured in 2 consecutive years to regain PP eligibility.
- ◆ Land emerging from CRP or New Breakage is not eligible for PP the first year. It must be planted, harvested and insured before it is eligible for PP coverage.

PP Changes in the past 2 years:

- ◆ New for 22': A cover crop planted on PP acreage can be hayed, grazed, or cut for silage, haylage, or baleage at any time without a reduction to the prevented planting payment. In prior years producers were restricted from doing so until November 1st, otherwise their PP payment would be decreased. The cover crop acres can also be rented out to be hayed or grazed. The cover crop **CANNOT** be harvested as grain by the producer or a renter.
- ◆ Can use an intended Acreage Report for first 2 years of farming (instead of just the first year).
- ◆ Eligible PP base acres will not be reduced by uninsured 2nd crop.
- ◆ A producer can plant part of a field to another crop and still qualify for PP on his first intended crop (i.e. corn PP and plant soybeans within a field.) Producer will have to prove they intended to plant the PP crop within a field without 2 crop history.

Final Plant Dates

Corn

State	Final Plant Date	Counties
MN	May 25	Beltrami, Marshall, Polk, Pennington, Red Lake, Norman, Mahnomen, Clearwater
MN	May 31	All other MN counties
ND	May 25	All ND counties except those listed below
ND	May 31	Cass, Ransom, Richland, Sargent

Wheat/ Barley

State	Final Plant Date	Counties
MN	June 5	Polk, Red Lake, Marshall, Pennington, Clearwater, Beltrami
MN	May 31	Mahnomen, Norman, Becker, Clay, Wilkin, Otter Tail, Todd, Wadena
MN	May 15	All Counties South
ND	June 5	Grand Forks, Nelson, Walsh
ND	May 31	Traill, Cass, Richland, Barnes, Stutsman, LaMoure, Dickey

Soybeans

State	Final Plant Date	Counties
MN	June 10	All insurable counties
ND	June 10	All insurable counties

Drybeans

State	Final Plant Date	Counties
MN	June 10	All insurable counties
ND	June 10	All insurable counties

Sunflowers

State	Final Plant Date	Counties
MN	June 10	All insurable counties
ND	June 10	Cavalier, Pembina, Ramsey, Walsh, Benson, Nelson Grand Forks
ND	June 15	All Counties South of those listed directly above

Canola

State	Final Plant Date	Counties
MN	June 5	All insurable counties
ND	June 5	Grand Forks
ND	May 25	Wells, Eddy, Foster, Steele, Trail
ND	May 20	All Counties South of those listed directly above

2022 MPCl Prices

Below are the projected/base prices used to calculate the minimum guarantee for crops you have insured with Revenue Protection or Yield Protection Coverage. Revenue Protection Harvest prices will be calculated in August for wheat and barley, September for canola, October for corn, soybeans and sunflowers, and from the 2nd Tues in Sept to the 3rd Tues in December for drybeans.

- ◆ **Barley** \$5.35
- ◆ **Canola** \$0.303
- ◆ **Corn** \$5.90
- ◆ **Soybeans** \$14.33
- ◆ **Wheat** \$9.19
- ◆ **Sflwr-oil** \$0.324
- ◆ **Sflwr-conf** \$0.405
- ◆ **Drybeans-** \$/lb
 - DRK \$0.44
 - BLK \$0.39
 - Navy \$0.39
 - Pinto \$0.37

APH Prices

Established APH Prices for crops that do not have Revenue Protection available:

- ◆ **Sugarbeets** \$0.161 (\$/lb)
- ◆ **Potatoes** \$10.30
- ◆ **Oats** \$3.70
- ◆ **Drybeans-** \$/lb
 - LRK \$0.44
 - Pink \$0.39

Enlist Duo Restriction Lifted

Originally, the EPA had prohibited the use of Enlist Duo in six Minnesota counties (Clay, Marshall, Polk, Redwood, Renville, and Stearns) due to its potential impact on the Eastern Massasauga Rattlesnake. However, the EPA lifted the restrictions once they discovered the maps that designate the habitat range for the rattlesnake were outdated and the MN DNR indicated the rattlesnake could not be found in Minnesota.

Replant Coverage

If you're faced with having to replant a field or part of a field, here are some things to keep in mind:

- ◆ **CALL BEFORE YOU REPLANT** All replanting must be reported and approved by your insurance company **prior to starting**, regardless of field size. Failure to do so will result in **denial of the claim** and could potentially affect your crop insurance coverage.
- ◆ You may have a replant claim if at least 20 acres or 20% of the unit (OU, EU) is damaged to the extent that replanting is required.
- ◆ You will be required to replant up to 10 days after the final plant date if the remaining stand will not produce 90% of the crops guarantee, unless it is physically not possible to replant.
- ◆ If it is 10 days after the final plant date, the insurance company will determine if it is feasible to replant or if the crop can be destroyed and planted to a 2nd crop.
- ◆ **An insured can self-certify their replant inspections up to 100 acres by unit.**

Example: If a producer has 5 different databases/sections that would qualify for optional units set up in an Enterprise they could qualify for up to 100 acres by unit/section or up to 500 acres total. The producer still needs to turn in the claim before replanting.

2022 REPLANT PAYMENTS

Replant Payments are the lesser of the bushel per acre x the MPCl price or % of the guarantee of the unit as listed below.

Crop	Replant Limit (lesser of)	Max 2022 Replant Payment
Barley	5 bus or 20% of guarantee	\$26.75
Corn Grain	8 bus or 20% of guarantee	\$47.20
Dry Beans	120 lbs or 10% of guarantee	Depending on type of drybean
Oats	5 bus or 20% of guarantee	\$18.50
Soybeans	3 bus or 20% of guarantee	\$42.99
Sugarbeets	\$110 or 10% of guarantee	\$110.00
Sunflowers	175 lbs or 20% of guarantee	\$56.70 Oils \$70.88 Conf
Wheat	4 bus or 20% of guarantee	\$36.76
